

Your Home, Our Care

Smart Home Stock

What problems is SHS trying to solve?

Unnecessary Purchases

Items running out unexpectedly

Unnecessary food waste

More than 430 people have this problems

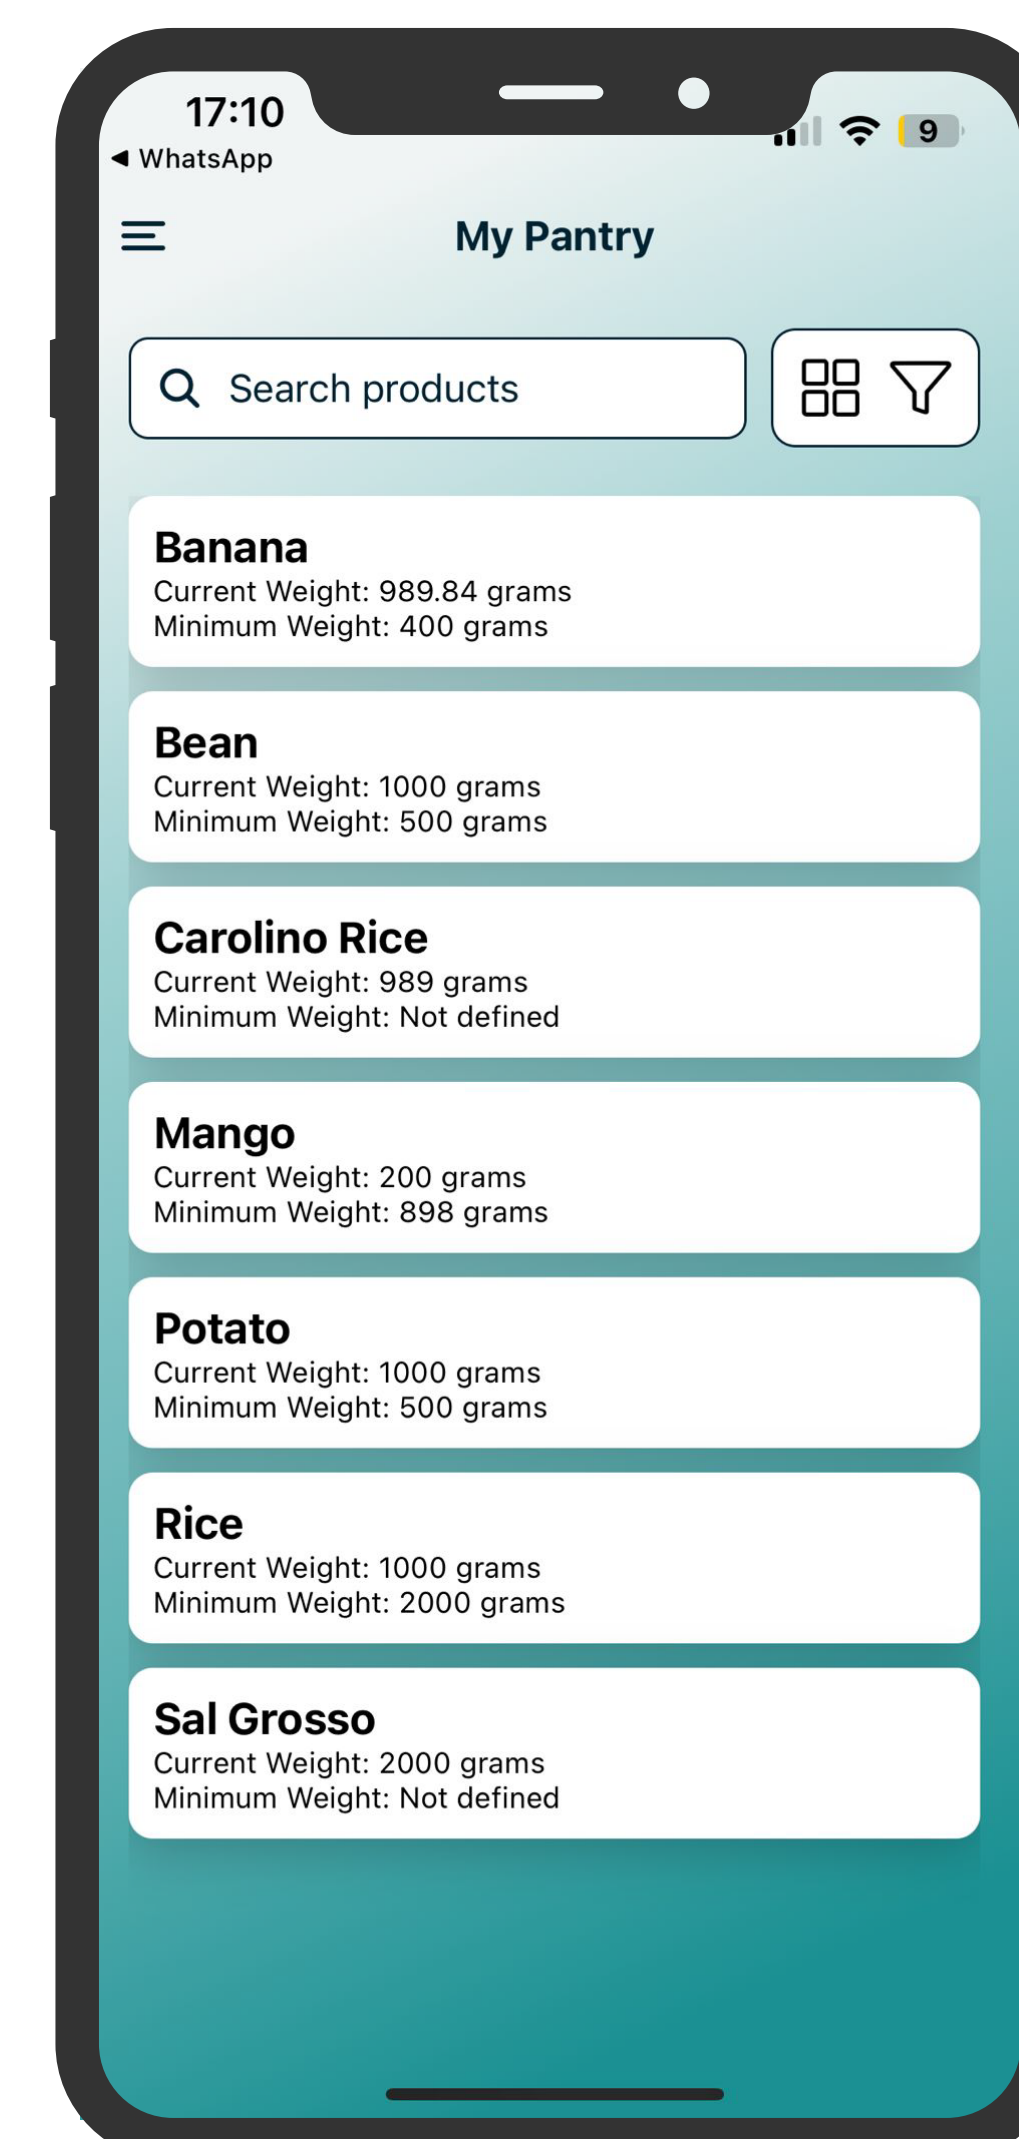

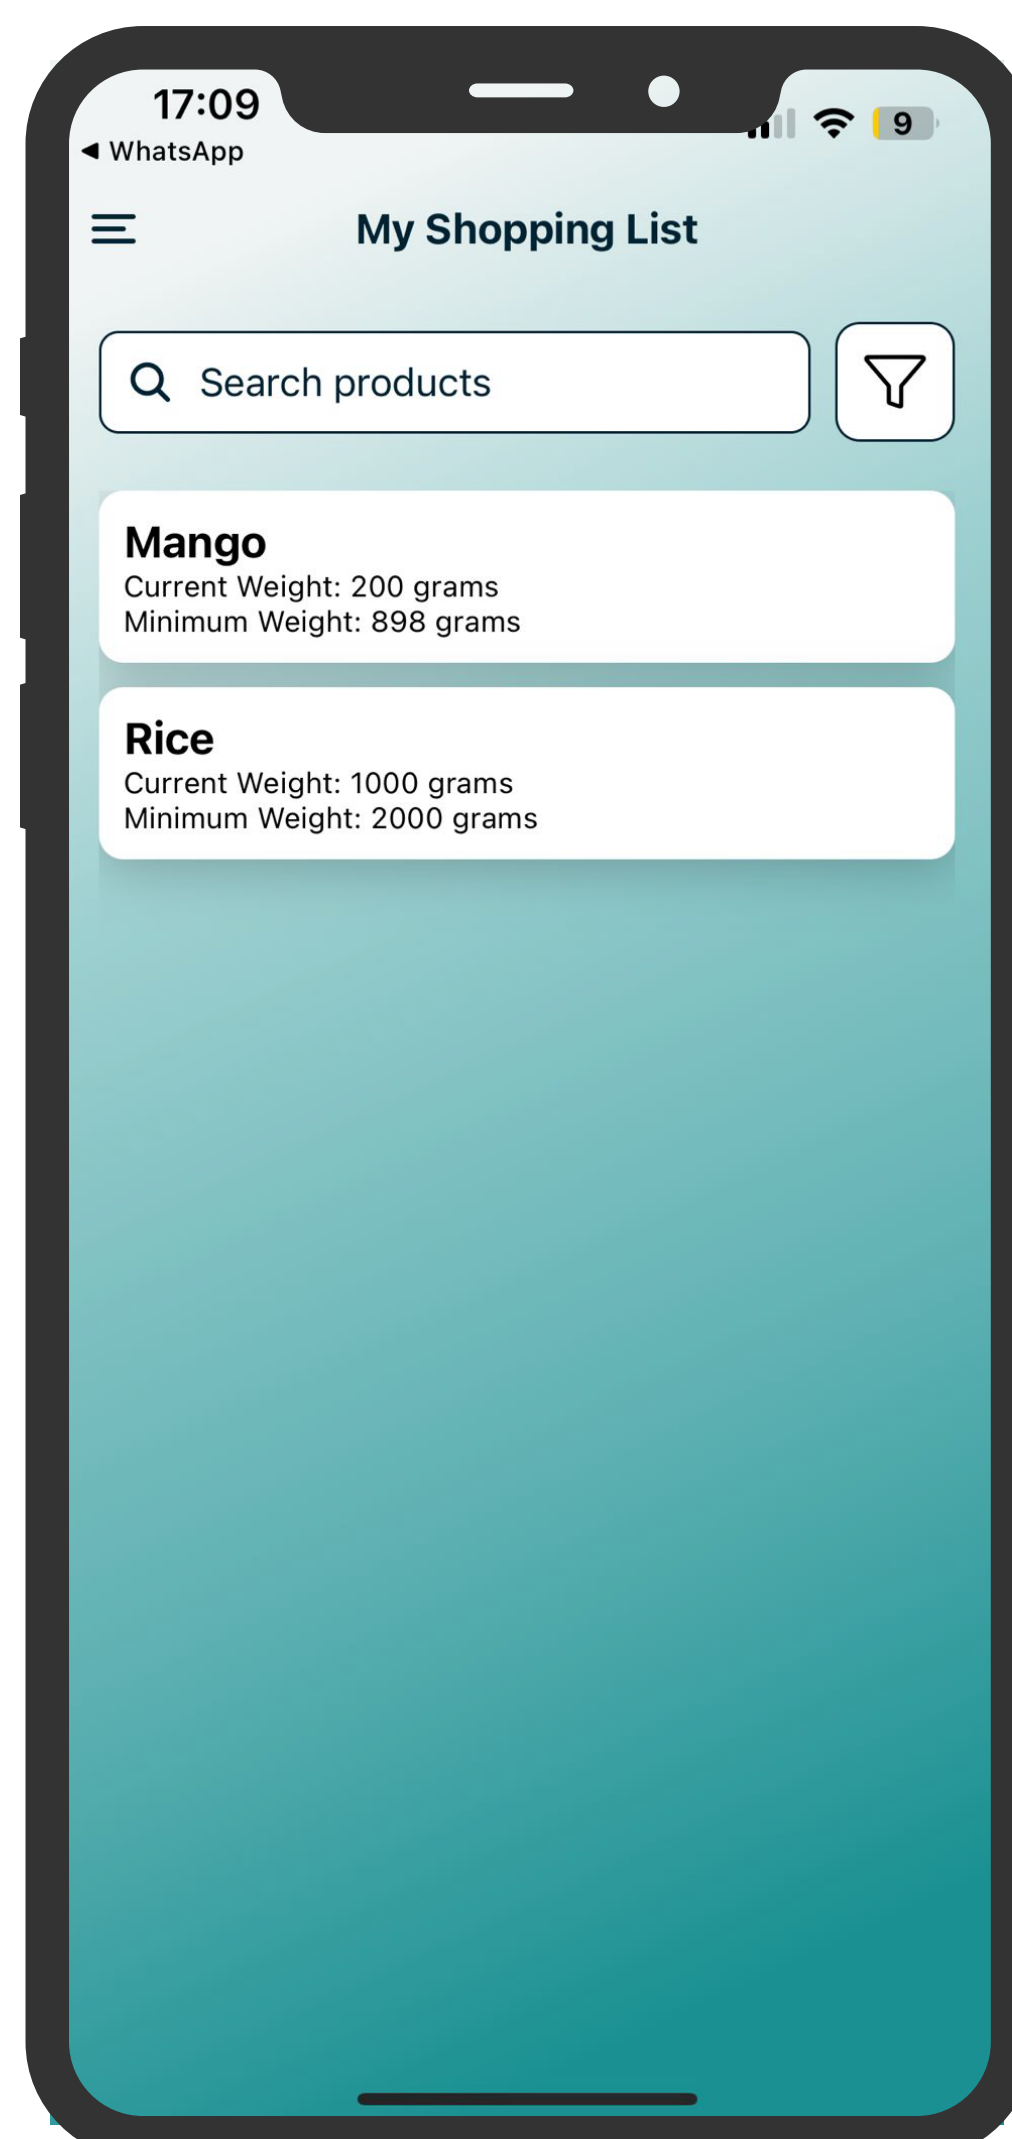

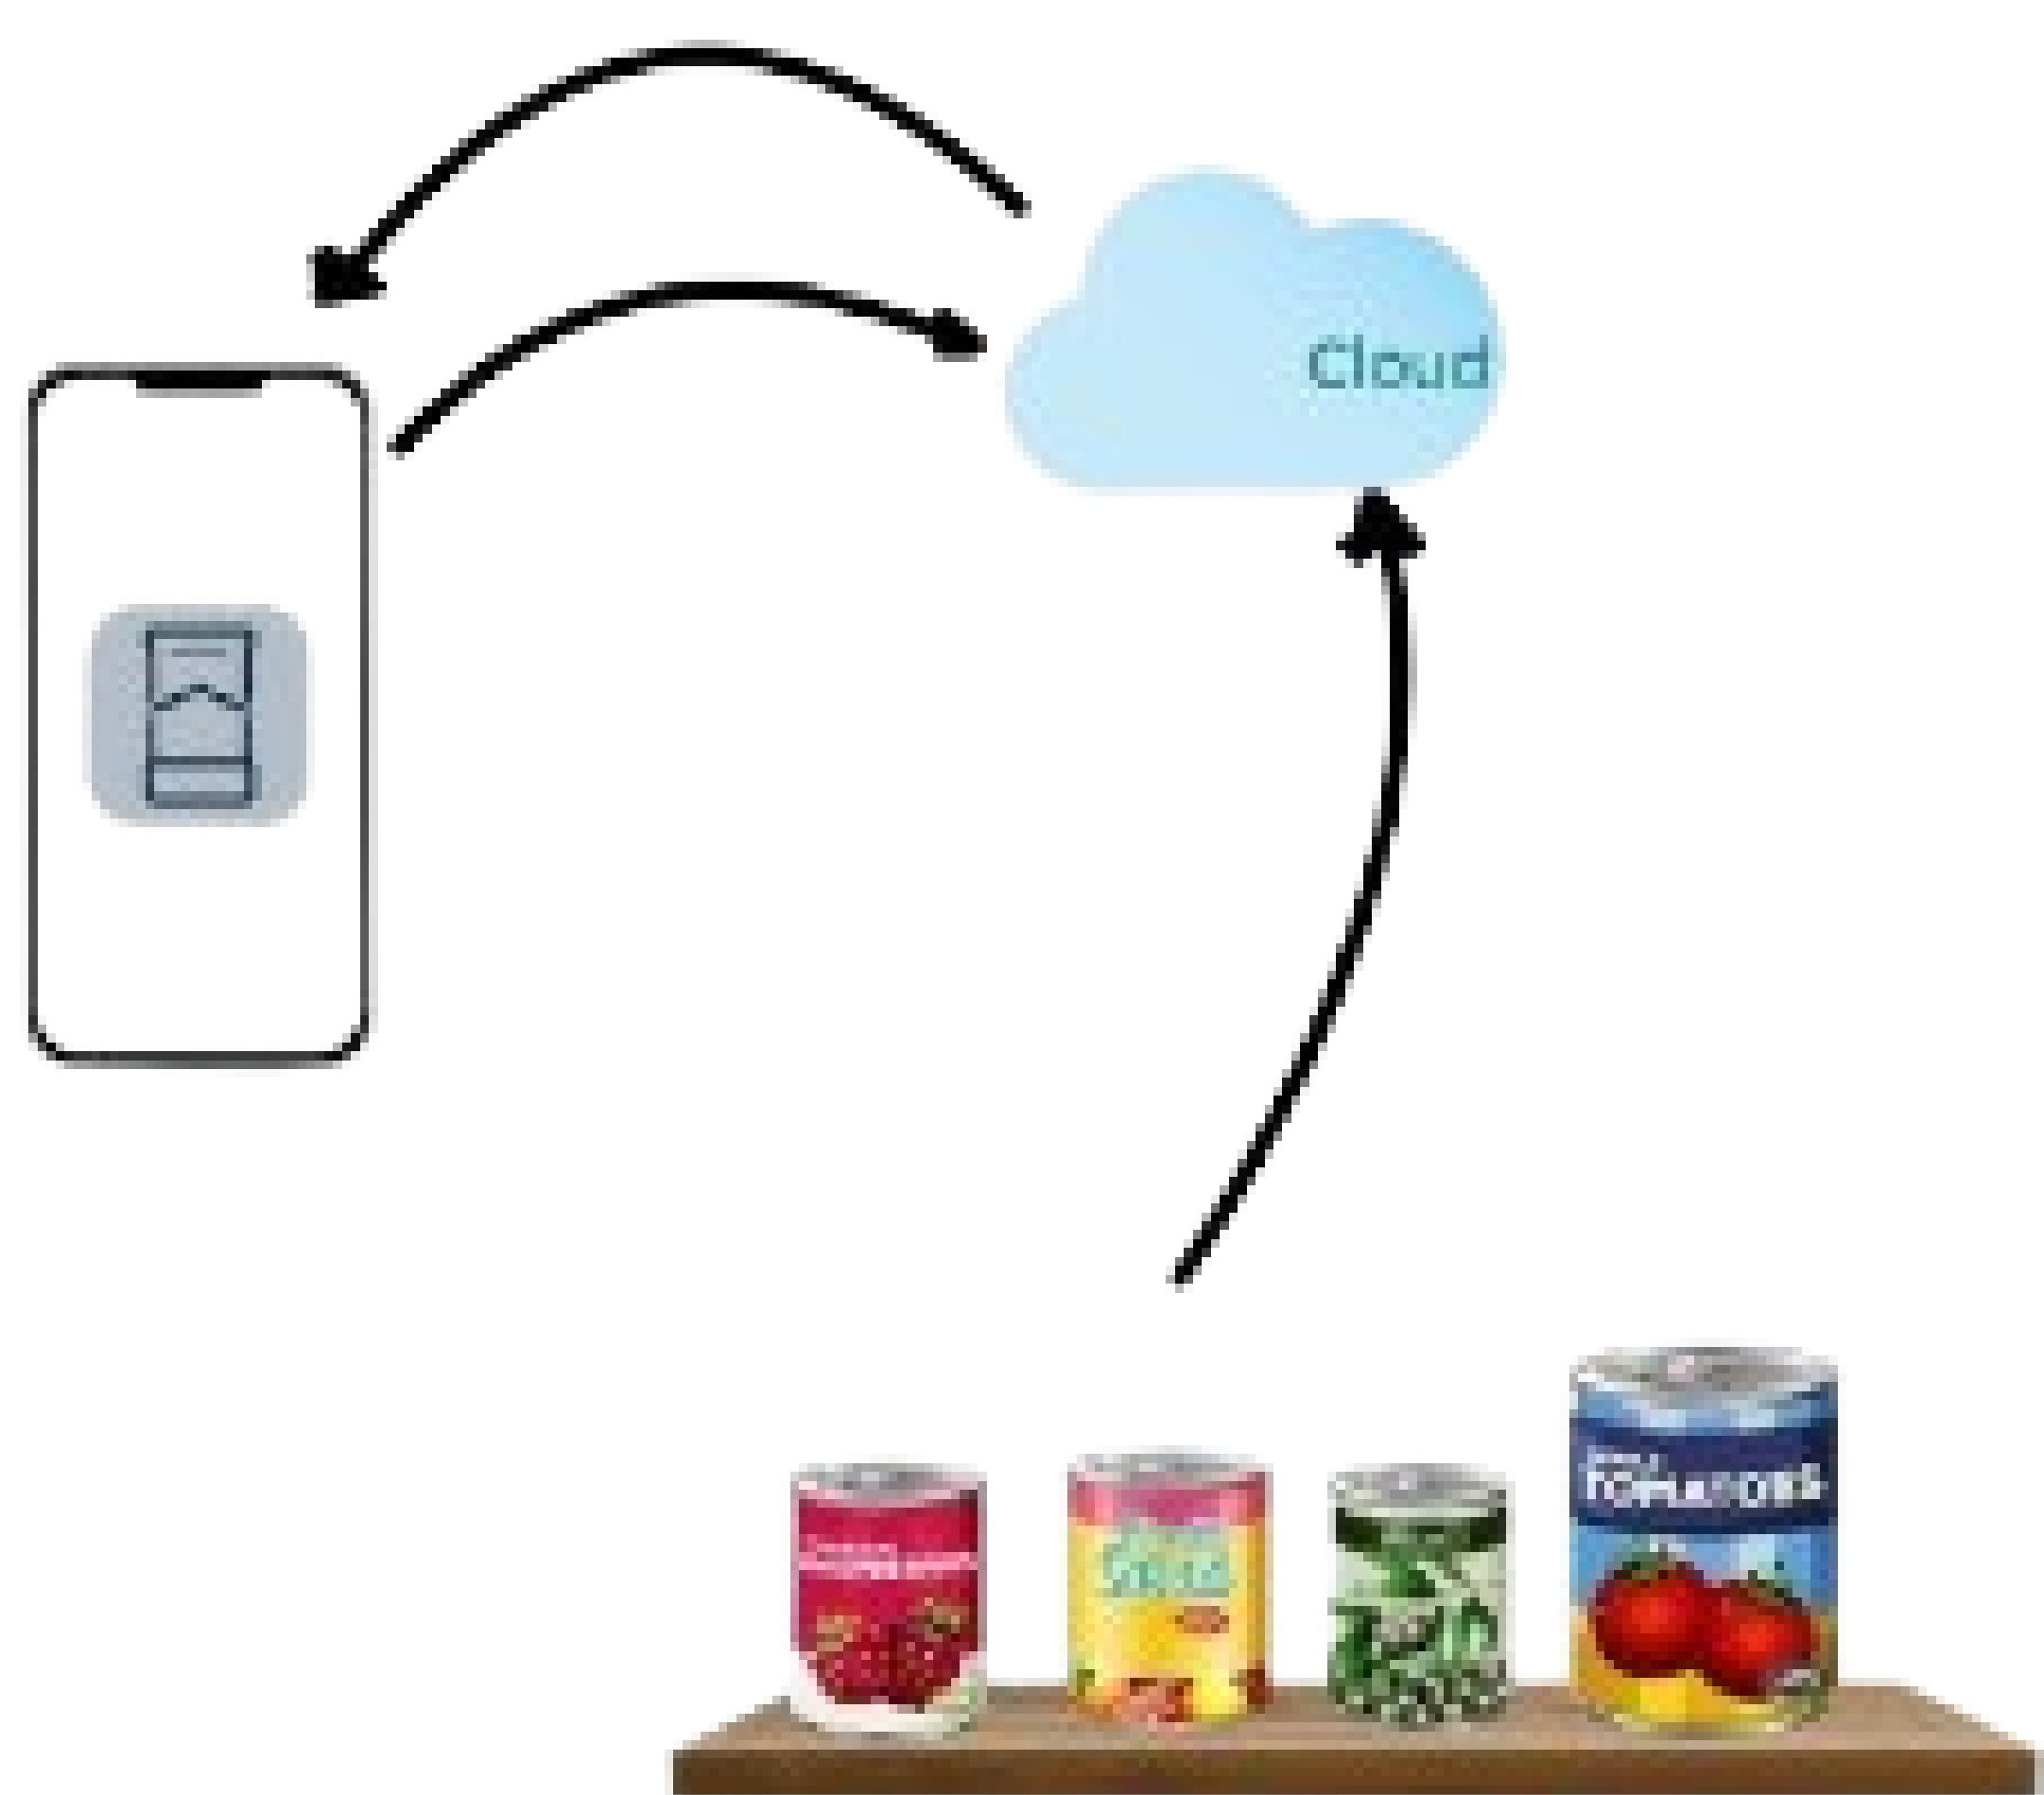

Effortless Inventory, Easy Shopping

 Smart scales on pantry shelves, connected to a user-friendly mobile app.

 As products are consumed, they are automatically added to a shopping list within the app.

 Automatically update the pantry inventory when products are restocked.

Who Benefits?

Busy Individuals and Families

Busy families needing to track pantry items and avoid running out of essentials.

Elderly and Disabled Individuals

People who find it difficult to manually check pantry items and benefit from automated monitoring and replenishment reminders.

Tech Savvy Consumers

Individuals who integrate technology to streamline tasks and increase convenience.

Household Storage

Improved organization and awareness of available food supplies.

Enhanced Shopping

Smoother and more personalized shopping trips.

Environment

Contribution to environmental sustainability.
