SMART GYM XX EQUIPMENT **CONVERSION KIT** XX

Do you track any of your workouts?

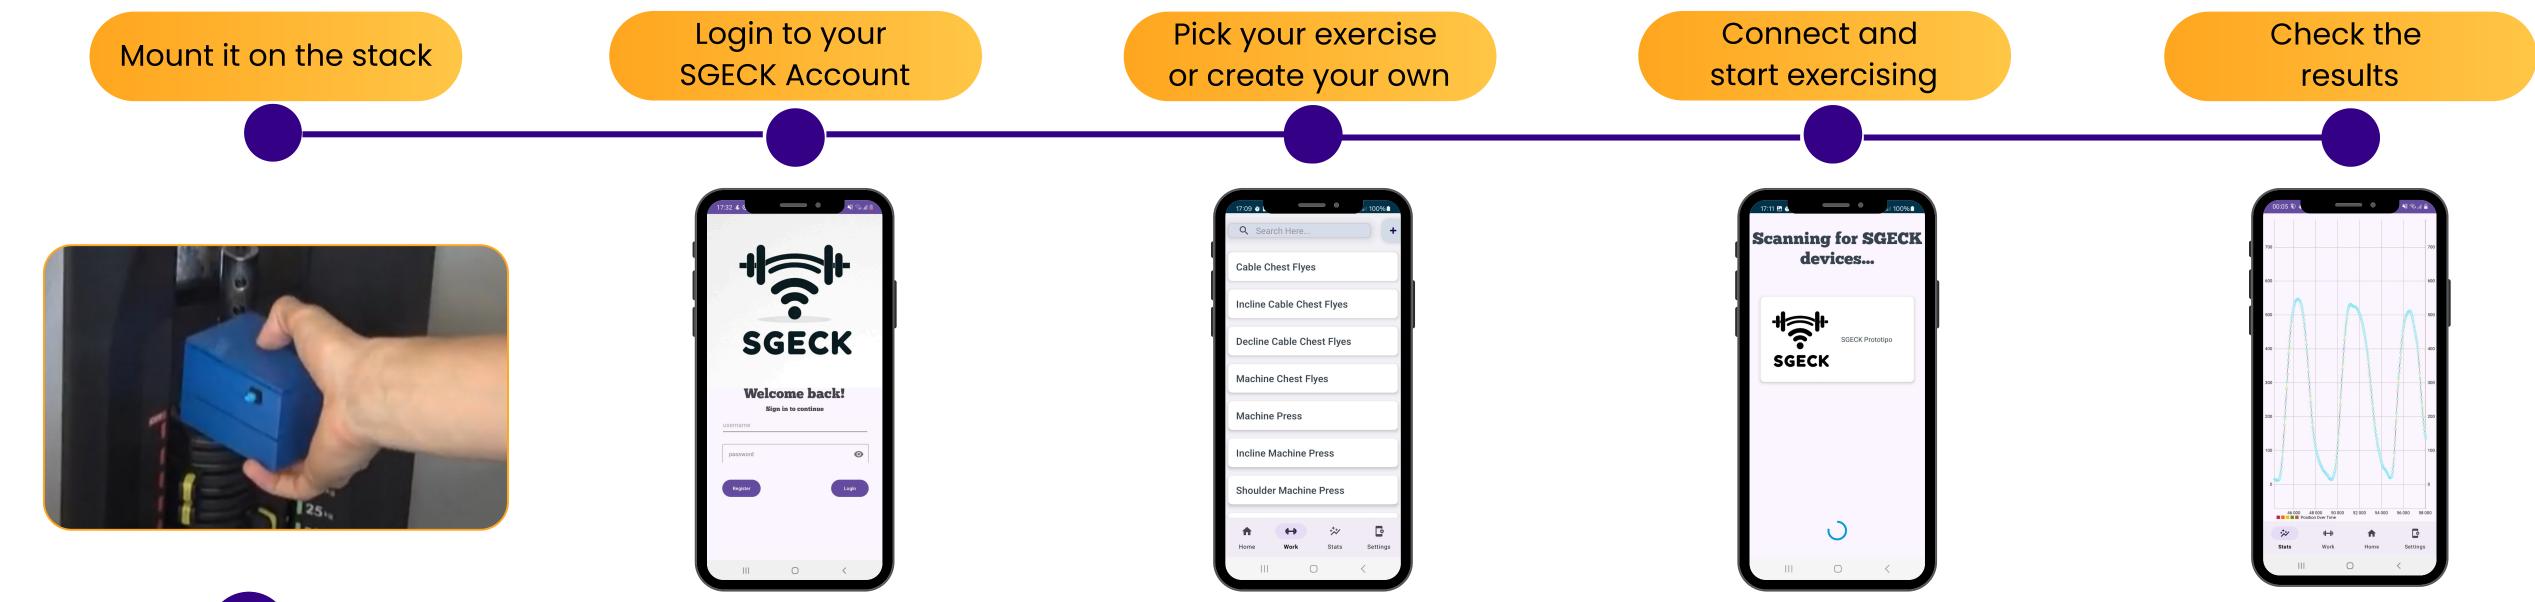

If so, you know the hassle!

Personalized feedback is key for your **progress** and that's why **the old pen and paper have to go!**

- Automated & personalized gym progress tracking is not available for your everyday gym machine.
- There is no way for a traditional gym to avoid replacing equipment to get equivalent benefits to that of a state of the art smart gym machine.

We have a solution!

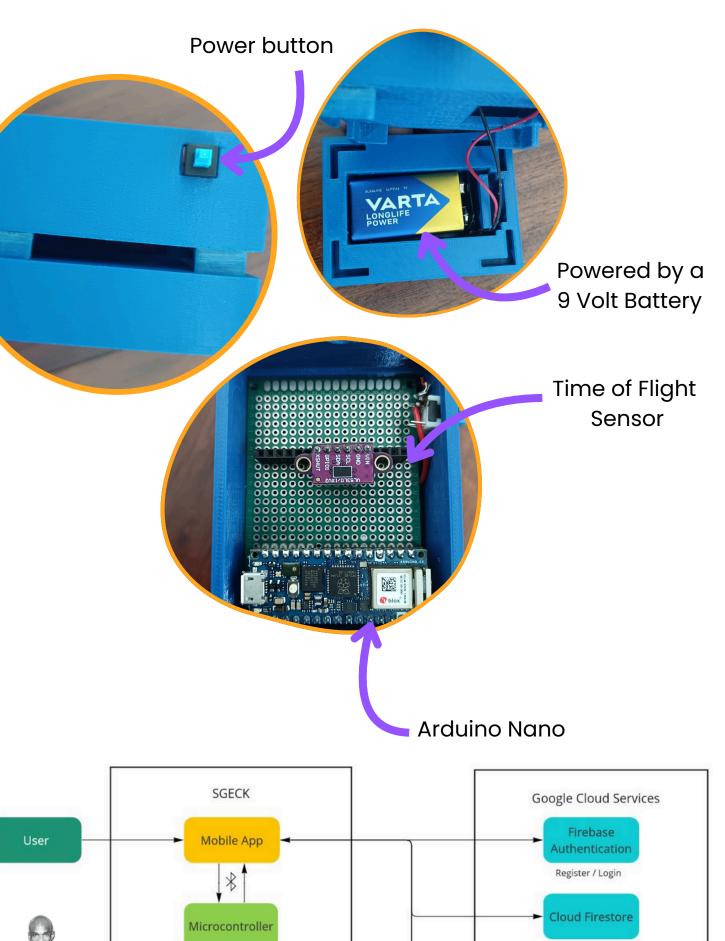

It's as simple as that!

- Check how we evaluated your execution based on the performance of accredited personal trainers!
- No more messy tracking. The exercises performed are saved to your profile automatically and displayed so you can effortlessly track your progress.

Hardware

• A Time of Flight sensor measures distances between the device and the top of the gym machine.

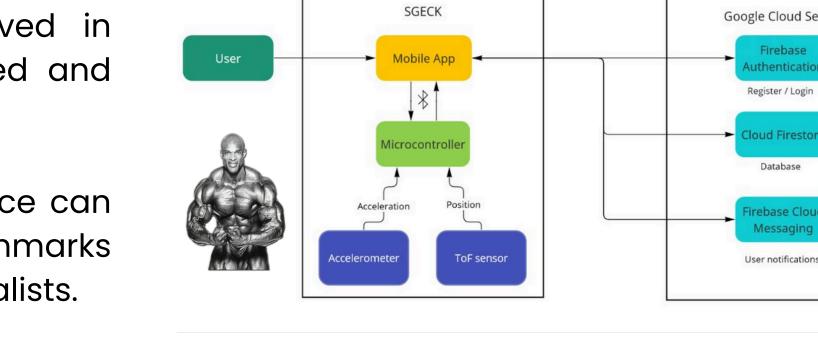

- Gym-goers of all experience levels can benefit from our product, from newbies to professional athletes.
- 89% of gym-goers quit within the first year, SGECK is a great tool to keep you

- The data is then sent via the BLE interface on the arduino nano
- The system is powered by a 9V battery

Software

- We use the Firebase Google Cloud service to store all data related to your workouts.
- Exercise information received in your app is then processed and filtered
- Now finally your performance can compared to benchmarks be collected from fitness specialists.
